DUST-A-PHONIC SOUND: Hello, we are looking forward working with you on that show, we don't have a soundman with us, we are 4x on stage and 4 x in the van because we work this way and we are considering and trusting every single professional soundman whom is spending most of the days of the year working the sound in your venue/festival. Please talk with the leader and producer of Dustaphonics, Yvan/Guitar to organize the best collaboration between them.

DRUMS: Natural sound /No loud kick drum and no use of gate, please A bit of short reverb on the snare please.

GUITAR: 1x guitar but 2x amps: 1 amp with a lot of reverb (no worries too much if it is too trebly/reverby) and the other amp is « dry/drive » could you please double the guitar signal of Guitar Reverb amp and pan it 10pm - 2 pm and leave the Guitar called Dry in the middle.

VOCAL:* VERY IMPORTANT PLEASE : Round bottom mic stand please add a tiny little bit of slap echo on vocals.

PATCHING STAGE PLOT

DUSTAPHONICS
